***Reasons for Allowance***

1. Claims 2-8, 10-13, 15, and 18-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is Hughes et al. (U.S. Patent No. 5,893,074) in view of Primavera Expedition, as disclosed in "Primavera Introduces Primavera Expedition 7.0." Hughes teaches various aspects of project management, including a display of project status and task reminders. Primavera Expedition teaches the concept of Web-based project status updates. Regarding the specific teachings of displaying different classes of change requests, closing a status change after passage of a contractor-selected period of time, and closing the status change by changing the color of a status indicator on a display, the Examiner submits that each teaching is separately old and well-known in the art. However, the Examiner asserts that improper hindsight would be required to combine all of the aforementioned limitations in one single system/method. This combination of limitations is recited in claims 2-8, 10-13, 15, and 18-20; therefore, claims 2-8, 10-13, 15, and 18-20 are deemed to be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
